

THE CENTER FOR **NANOSCALE MATERIALS**

By the numbers

The Center for Nanoscale Materials, a U.S. Department of Energy Office of Science user facility, provides expertise, instrumentation and infrastructure for interdisciplinary nanoscience and nanotechnology research.

Academic, industrial and international researchers can access the center through its user program for both nonproprietary and proprietary research. Access is provided at no cost to users for research that is in the public domain and intended for publication.

150+ tools and capabilities

tools and capabilities available for remote experiments

scientific and user support staff

proposal allocation rate

calls for user proposals each year

in journals with

impact factor >7

patents each year
